Jan 2021 - Present

**Masyopnet Technologies**

**Kamba, Kenya**

*Attachee*

Passionate and ambitious computer science student actively seeking opportunities to enhance my skills and contribute to the ever-evolving world of technology. Currently pursuing a degree in computer science, I am equipped with a solid foundation in programming languages, algorithms, and data structures. My strong analytical and problem-solving abilities, coupled with a keen interest in emerging technologies, drive me to explore innovative solutions to real-world challenges. With a deep commitment to continuous learning and a collaborative mindset, I am eager to connect with industry professionals and engage in projects that foster growth and knowledge sharing. Let's connect and

explore how we can make an impact together in the field of computer science."

A computer science year 2 cv he was attached to masyopnet Technologies he build a lot of web apps and websites he has been developing his own website to date write that section for job description that from 2021-2022 he was developing his own website and add some other things he would do as a computer science student that day and on 2023 may he is at masyopnet Technologies developing web apps and websites as an attached kindly add any thing to add him points on his cv

**Job Description:**

Web Developer Intern, Masyopnet Technologies

May 2023 - Present

Collaborate with a team of developers to design, develop, and deploy web applications and websites for clients in various industries.

Write clean, efficient, and well-documented code using HTML, CSS, JavaScript, and other relevant technologies.

Conduct thorough testing and debugging to ensure optimal functionality and user experience.

Participate in requirement analysis and project planning meetings to understand client needs and propose suitable solutions.

Implement responsive designs and optimize websites for performance and SEO.

Stay up to date with industry trends and emerging technologies to suggest innovative solutions and improve development processes.

Work closely with project managers and clients to gather feedback and make necessary adjustments to meet project requirements.

Collaborate with cross-functional teams, including designers and content creators, to ensure seamless integration of visual elements and content.

Continuously learn and enhance programming skills through online courses, workshops, and self-study.

Web Development Project (2021-2022):

Independently developed a personal website, showcasing a portfolio of web applications and websites created using various technologies, including HTML, CSS, JavaScript, and responsive frameworks.

Designed and implemented an intuitive user interface, ensuring a smooth browsing experience for visitors.

Integrated dynamic elements such as contact forms and interactive features to enhance user engagement.

Implemented best practices for search engine optimization (SEO) to improve website visibility.

Utilized version control systems (e.g., Git) to track changes and collaborate effectively with others.
